

## OMNi Telix

### Quick Add Email Address from Message

You may easily update your address book directly from an incoming message. Just right click on the email address bubble:

- ❶ Sender for the specific message is not in your address book and appears as “unknown” with a round grey question mark.
- ❷ Right click on the email address bubble to update your address book or circular list.

The following update options are available:

- Add email to new **Company**  
To create a new addressee with the selected email address
- Add email to new company **Member**  
To create a new member with this email address
- Add email to **Existing**  
To add the specific email address to an existing Company or Member or Circular list.

*LgMAR is a software company founded by a team of dedicated experts in computer science and maritime business, to develop highly specialized software in the area of telecommunications.
