

OMNi TELiX

Autocomplete for frequently used text

A useful OMNi feature that will speedup preparing messages and allow users to avoid the hassle of typing similar text again and again.

In the body of the email message enter the @ symbol and the first few letters of your frequently used text.

You may define frequent text to “Tools| Autocomplete” text and type @ followed by the frequently used text that you would like to be automatically completed when preparing a message.

i.e. for the frequent text "Best regards" create the following line:

@Best regards,

Other examples:

@We can indicate as follows:

@Please offer firm for

@Please propose firm cargoes for our exclusive vessel

@ATTN

Master M/V

@Important Notes:

Please ensure that the passport held, is valid for more than six months.

Always check entry visa requirements for visiting countries.

@Could you please sign the attached form and send it back to us by

Omni is the web interface for Telix, the leading maritime message management system that introduced electronic messaging to the shipping industry in 1989. Omni enables maritime users to collaborate efficiently with a sleek, fast and easy to use interface for email, fax, telex, sms, drag and drop company and personal filing, extensive classification, remote access, and a plethora of company and personal tools to handle your messaging and communications.
