Windows Telix Suite
iTelix February 2017 update includes:
## Alarms, delete, mark, select multiple messages.

We would like to thank Telix users for their positive comments and great ideas. You may upgrade the free application **iTelix** from iTunes or Google Play stores to enjoy the new features and enhancements:

Alarms may be selected as the default message list for iTelix app. Use WT3, Tools, Alarm management to enable. Your mobile device will present alarms as instant notifications to keep you informed even when you are not using the iTelix Application.

Tap and hold the message list to enable selecting multiple messages. You may delete, mark as own, mark as seen, mark as unseen using the icons at the bottom of the screen.

Tap here to select up to 100 messages

Tap anywhere to select a single message

Selecting the Trash icon will delete all selected messages

Exit multiple selection without any action

Own/Star messages to work later in the office

Mark messages as unseen or as seen

These new features add to the existing iTelix App functionality like: Ultra-fast, friendly and easy to use, fully integrated with Telix suite, text to speech, direct phone call from your iTelix address book, touch screen gestures, push notifications, vibrant text avatars, close integration with the Telix suite, print messages from your phone.
