

## Windows Telix Suite iTelix TouchScreen Gestures

You may use your iTelix application by performing gestures on the touchscreen. These gestures are a great shortcut, make the use of your mobile device easier and enhance your productivity and sense of using iTelix application. Some of the most popular gestures below:

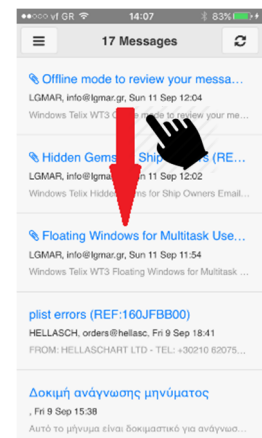

### Next message

Swipe in from the right edge of the screen for the next message.

### Previous message

Likewise, swipe in from the left edge of the screen for previous message.

**Refresh your list for new messages**  
Drag the list from top to bottom to refresh for new messages.

### Read message with text to speech

Swipe down from the top with two fingers, or just tell Siri to Speak Screen and have all the content of the page read back to you. Requires that Speak Screen is on (Settings | General | Accessibility | Speech)
