Windows Telix Suite

Manage your iTelix notifications – Android (Marshmallow 6.0.1)

Notifications are a great way to get informed about incoming messages even when you are not using the iTelix Application. Since one size does not fit all and you may need to customize what and how you receive. Please find below some quick tips about customizing these with Android:

1. Swipe your screen from the top to bottom and select the settings icon.
2. Under Device section, tap on "**Applications**"
3. Tap on "**Applications Manager**"
4. Scroll down until you find **iTelix** and tap on iTelix. Please choose "**Permissions**"

The screen shown in the right will be dsplayed.

Allow Notifications
To turn on/off all notifications for iTelix (we suggest on)

Set as priority
To show iTelix notifications at the top.

Preview in pop-ups
To turn on/off the notifications scrolling down from the top and disappear after a few seconds.

Hide on lock screen
You should turn this on in case you do not want notifications to appear while you telephone is in lock screen.

Hide content on lock screen
Turn this on to receive notifications only, without content in lock screen.
