

Windows Telix Suite

Manage your iTelix notifications - iPhone

Notifications are a great way to get informed about incoming messages even when you are not using the iTelix Application. Since one size does not fit all and you may need to customize what and how you receive, please find below some quick tips about customizing these with iPhone:

From your iPhone, go to Settings | Notifications and scroll down to find iTelix. You will observe the screen shown in the left.

Allow Notifications

To turn on/off all notifications for iTelix (we suggest on)

Show in Notification Centre

To turn on/off all notifications in the Notification centre (reminder: the notification centre is shown by swiping from the top to bottom of your iPhone display)

Sounds

To turn on/off the alert sound when you receive a notification

Badge App Icon

To turn on/off the red counter on the iTelix App icon showing how many messages are unread (we suggest to keep this on).

Show on Lock Screen

You should turn this to off in case you do not want notifications to appear while your telephone is in lock screen.
